ORIGINAL CALIFORNIA TRIMMER™ SINCE 1935

PRECISION REEL MOWERS

COMMERCIAL QUALITY • PROFESSIONAL RESULTS

Since 1935, California Trimmer mowers have been manufactured with the commitment to produce the best power reel mower available. California Trimmer reel mowers will provide you with a healthy lawn that has the look of a finely manicured golf green. Rotary mowers tear and rip the grass removing nutrients resulting in brown spots, rough growth and thatch. Reel mowers make very clean, sharp cuts, like a pair of scissors. When grass is cut in a clean, smooth manner, moisture and nutrients are locked in promoting healthy growth and less maintenance.

NEW MODEL FOR 2014

RL205H/RL207H
20" 5 or 7 Blade

Suggested Retail

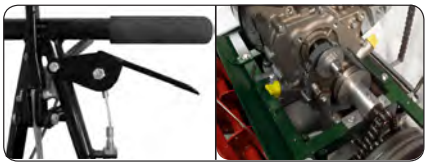
$999.99

Subject to dealer participation. Freight, handling and set-up charges may apply.

OPTIONAL COMMERCIAL ENGINE

POWERED by HONDA™
GX120

OPTIONAL FRONT ROLLER



CONVENIENT CLUTCH SYSTEM

A simple hand lever controls the smooth engagement of the durable belt / chain drive which provides direct and variable speed mowing for every type of operating condition.

SUPERIOR CUTTING ACTION

Our reel and cutter bar are made of heat-treated high carbon steel for sharper blades and a longer lasting cut that provides beautiful results and improves overall lawn health.

HEAVY-DUTY DRIVE SYSTEMS

The main axle and reel blade shafts are supported by full-sized ball bearings and are driven by large chains and heat-treated sprockets.

9" DEEP TREAD DRIVE ROLLER

The extra-wide and grip textured surface area provides solid traction to effectively propel the mower while protecting the grass.

EXTRA-LARGE GRASS CATCHER

A capacity of up to 2 bushels (70 liters) reduces emptying stops and starts. Made from durable high-density polyethylene, their simple and convenient mounting method provides easy access and removal.
